Different Drummer

More specifically, there is evidence that engagement with artistic activities, either as an observer of the creative efforts of others or as an initiator of one's own creative efforts, can enhance one's moods, emotions, and other psychological states as well as have a salient impact on important physiological parameters.

Stuckey, Heather L, and Jeremy Nobel. "The Connection between Art, Healing, and Public Health: a Review of Current Literature." American Journal of Public Health, American Public Health Association, Feb. 2010, www.ncbi.nlm.nih.gov/pmc/articles/PMC2804629/.

SNEAKER DESIGN

Students acted as sneaker design executives when creating a variety of design options to present to an imaginary client.

grade 8

INKTOBER

Students participated in the worldwide drawing challenge “Inktober” - making ink based (or ink inspired!) drawings based on a list of official prompts. Different interpretations of the same set of words make for interesting drawings!

MAKING ART IS SELF CARE

try making a zentangle

a zentangle
is a meditative
art form that
is accessible by all
skill levels

the repetitive
process facilitates
reflection and
contemplation
which can help you
relax
